

RULES FOR AN ENJOYABLE STAY WITH YOUR PETS.....

- When dog walking, you are kindly requested to take poo bags with you; if you don't have any, there are two dispensers in the parking area right by the bins
- We have a large number of pets so, for any toileting needs, you are kindly requested to take your dog off the premises and NOT to the garden or other hotel areas (car park, terrace, play areas)
- Pets can accompany their human families anywhere in the hotel, including the dining room, provided they are on a lead
- Owners should ensure that their animals are under control and behave in such a way so as not to disturb other guests
- Dog bowls, cushions and any dietary requirements are available on request
- We are always on hand to advise on walks and trips out and about
- We recommend that dogs are not left alone in their rooms to avoid potential damage to furnishings. We suggest you take your pets with you or find an alternative solution for while you are out - your balcony or our dog sitter (additional charge). Should damage occur, we are obliged to charge you accordingly.
- Nor can bed or bath linen be used for your pets. If you require special towels or sheets, just ask reception
- Guests should accept full responsibility for any damage incurred by their animals

We thank you for your understanding. Here is further information which you might find useful:
